

ABS Wavesight™

NAUTICAL SYSTEMS DOCUMENT MANAGER

Maritime Fleet Management Software

The ABS Wavesight Nautical Systems® Document Manager System (DMS) integrates all NS modules for management, distribution and control of critical safety and operational documentation. NS DMS ensures required documentation is easily accessible and shared appropriately.

Powerful. Simple. **Reliable.**

EFFICIENT DOCUMENT MANAGEMENT AND CONTROL ORGANIZATIONAL EFFICIENCY

ABS Wavesight NS Document Manager supports the efficient and proactive management of documentation, allowing you to distribute information to those who need it, and track receipt acknowledgment—enabling efficiency and productivity throughout the organization. Tight integration with all modules facilitates easy access to relevant information at all times.

NS DOCUMENT MANAGER CAPABILITIES

- Delivers relevant documents to specific tasks when fully integrated into the NS process workflow
- Maintains full traceability/history of a document from initial draft to final distribution, including revision history
- Enforces version control
- Enables compliance by storing and distributing key regulatory publications
- Easily distributes OEM manuals, circulars, bulletins and vessel drawings
- Controls distribution of documents by vessel, vessel type, role or user
- Tracks ship-to-shore acknowledgment by user
- Utilizes advanced search queries by author, audience, data, vessel or vessel type
- Allows easy access and management via web interface
- Integrates seamlessly with all NS Enterprise modules

THE NAUTICAL SYSTEMS DIFFERENCE
