23RD ANNUAL NAUTICAL SYSTEMS GLOBAL User Conference

ABS WAVESIGHT™

23RD ANNUAL NAUTICAL SYSTEMS GLOBAL User Conference

ABS WAVESIGHT™

VESSEL

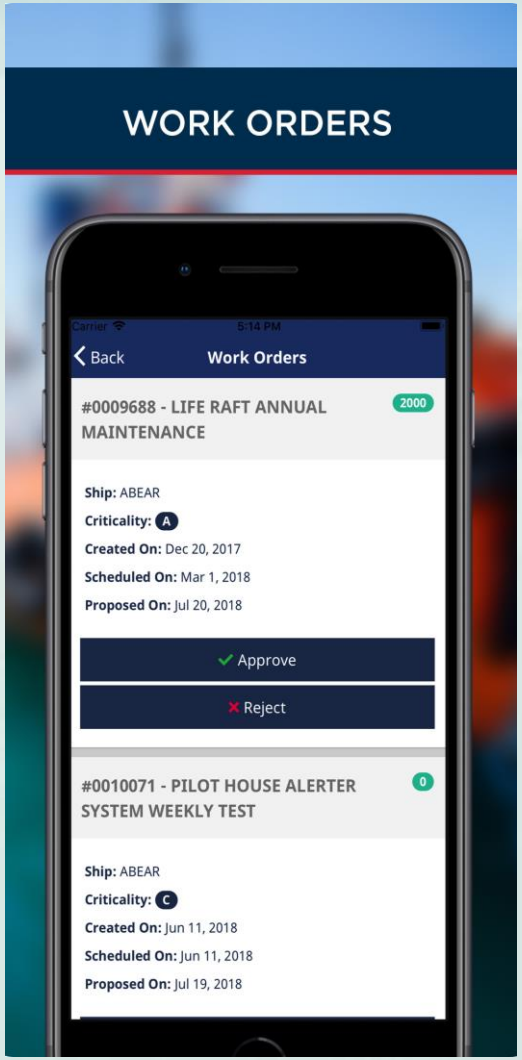
Enables crew mobility while on-board blue-water vessels, ensuring efficiency as daily tasks, inspections and checklists are performed.

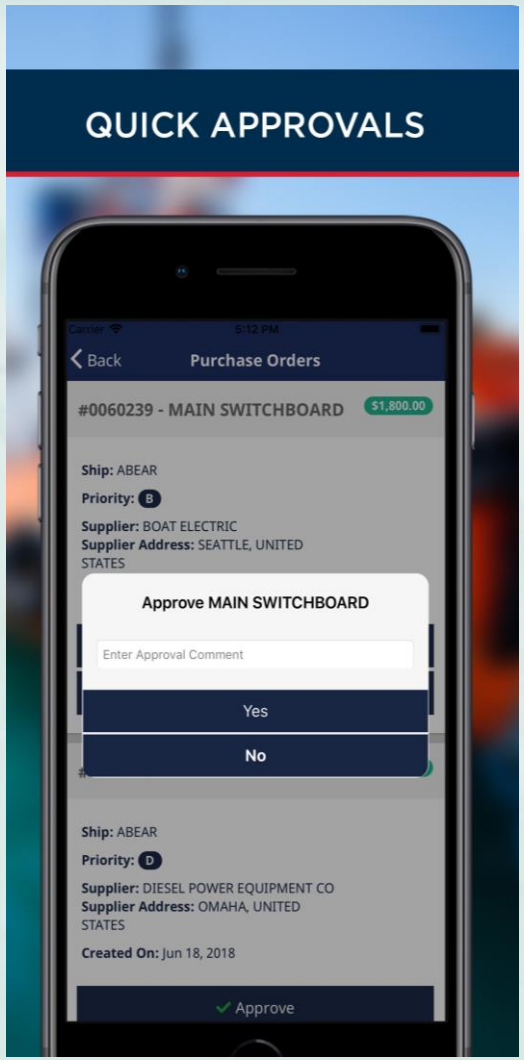
- View maintenance and compliance tasks easily: planned and unplanned work orders, audits, inspections, meetings, drills, running hours entry task, inventory count task
- Report incidents, near misses, hazard identifications and machinery failure
- Capture visitor log information
- Assess critical equipment list with job history
- Update crew qualifications and record crew work rest hours

WORKBOAT

Enables operational compliance with simple tasks lists and checklist-based functionality for onboard operations and onshore decision making.

- Facilitate regulatory compliance
- Support work order completions, audit inspections, checklist-based inspections, onboard meetings and drills and document delivery
- Identify critical equipment history for inspections and audits
- Report on hazardous conditions, inspections and equipment failures
- Update key operational information such as equipment running hours and spares inventory





SUPERINTENDENT

Enables efficient workflow by giving superintendent and managers control over work and approvals from their mobile devices so that critical work doesn't have to wait for someone to return to the office.

- Approve purchase orders, invoices, request for quotes, work order deferrals and job safety (risk) analysis, Corrective Actions
- Create new purchase orders
- Crew List
- Locate vessels easily with built-in locator
- Messaging
- Ship particulars report
