

ABS Wavesight™ NAUTICAL SYSTEMS INSIGHT

Maritime Fleet Management Software

The ABS Wavesight Nautical Systems® (NS) Insight leads the industry in turning operational data into management information by exposing hidden value in existing data and leveraging analytics to provide money-saving insights and visibility into safety, operational and financial trends.

Powerful. Simple. **Reliable.**

BRING YOUR DATA TO LIFE

NS Insight leverages data across all modules, harnessing the power of integration and uncovering opportunities to leverage operational data, giving you key decision-making metrics to improve performance, gain efficiencies and improve safety.

NS INSIGHT CAPABILITIES ANALYTICAL INSIGHTS

- Transforms your transaction management system into a Management Information System
- Adds cutting-edge data visualization and analysis
- Supports comprehensive analysis, including drill-down capabilities
- Allows you to view multiple relationships in the data to drive improved performance and safety
- Reveals unexpected correlations previously hidden by static reports
- Enables advanced analysis of operational and financial data
- Other analytics include: Maintenance Failure Analytics, Spend Analysis; Vendor Performance; Buyer Performance; Incident Analysis; Fleet comparison and analysis with benchmarking and more.

INTUITIVE FUNCTIONALITY

- Drill down from parent to child records
- Underlying data easily exported to Microsoft Excel or other analytical tools
- Dedicated analytics workspace for each area, e.g., Crew Management, HSQE, Voyage Management, Vessel Performance, BIMCO
- Built into NS Enterprise and requires no separate data interface or software
- Data visibility controlled by existing NS authorizations – little to no IT administration required

KEY PERFORMANCE INDICATORS

- KPI workspace provides complete view of operational performance at Enterprise, Line of Business, Ship Team and Ship level
- KPI targets and benchmarks drive performance improvement and reveal action areas
